## DON ANNOUNCES VESPER ENERGY DEVELOPMENT LLC DONATION

New Castle, PA. — Disability Options Network (DON) / DON Services, Inc. / DON Enterprises, Inc. are excited to announce a generous donation from Vesper Energy Development LLC, which has provided funds for two Automated External Defibrillators (AEDs) to be placed at DON offices in Lawrence County.

AEDs are vital, portable devices designed to address sudden cardiac arrest (SCA), a condition where the heart unexpectedly stops beating effectively. These life-saving machines analyze the heart's rhythm and, if necessary, administer a controlled electric shock to restore a normal heartbeat.

DON extends a heartfelt thanks to Vesper Energy for their steadfast dedication to improving community health and safety. This contribution significantly enhances our preparedness and response capabilities.

In addition, DON's safety committee is preparing to roll out a comprehensive training program to ensure that staff across all six locations are equipped with the knowledge to effectively use the AEDs during critical situations.
